

SOFTWARE LICENSE INFORMATION (SLI) FOR HP OUTPUT MANAGEMENT SOFTWARE

In addition to HP's standard terms and conditions or a separate Agreement between Customer and HP or its Suppliers (the "Agreement") the following license restrictions are applicable:

DEFINITIONS:

Capitalized terms not otherwise defined in this Software License Information (SLI) document are as defined in the governing Agreement.

"Area License" means a license allowing the Software to be used in a single region, defined as the Americas (North, Central and South America and Mexico) or EMEA (Europe, Middle East and Africa) or JAPAC (Japan, Asia, Pacific Rim and Australia).

"Destination" means an output destination provided through HP Output Server. Destination types include printer, fax, e-mail, file, FTP, and pager.

"Job" means one or more documents which comprise a single submission to HP Output Server, and which results in one or more documents' being delivered to one or more HP Output Server destinations.

"Line of Business" means a set of computing applications (software and/or hardware) which services a business need or transaction, for running an enterprise. Examples of LOB are supply chain management, human resources, etc...

"Non-Production Server" means a computer which provides services used by other computers, but which use is limited to development, testing, hot or cold standby.

"Production Server" means a computer which provides services used by other computers, in support of the Customer's business processes and activities.

"Site License" means a license allowing the Software to be used at a specific physical location (e.g., room number, department number, building number, street address, campus etc.) or a group of physical locations specified in the applicable Transaction Document. A Site License cannot include Physical locations in multiple countries or states.

"Third Party" means an external entity that is contractually engaged to provide services to Customer, such as consulting or outsourcing services, which require access or use of the Software by such entity.

"User" means an individual or computer process accessing the HP Output Management Software either directly or through an intermediate process. A User's action results in a Job's being sent to an HP Output Management Software Destination.

USE OF SOFTWARE BY THIRD PARTIES

This Software may be used by Third Parties, solely on behalf of the Customer. Such use may occur at the Third Party's locations or at the Customer locations.

CONSISTENT SUPPORT COVERAGE REQUIREMENT

The Support offered for this Software requires consistent coverage. Consistent coverage means that any support offerings made by HP are contingent upon the Customer consistently ordering support for all of its licenses. Customer may also elect not to order any support but support is offered for all licenses only.

GENERAL SOFTWARE LICENSE TERMS

1. To the extent this restriction is not prohibited under applicable law, Customer shall not disclose to any third party the results of (i) any performance benchmarks Customer runs on Software Products themselves, or any portion thereof, or (ii) specific detailed comparisons Customer makes between Software Products, or any portion thereof, and any Customer or third-party product, in each case under (i) and (ii) without the prior written consent of HP.
2. Customer shall install and use the Software as authorized in the applicable Agreement only as a complete product and may not use portions of such Software on a stand-alone basis separate from the complete Software unless expressly authorized in the Transaction Documents, Software License Information, or Specifications or an applicable Agreement.
