

Paul Miller

Vice President, Marketing, Enterprise Storage and Servers, Technology Solutions Group

Hewlett-Packard Company

Paul Miller is vice president of marketing for the Enterprise Storage and Servers (ESS) business unit at HP, responsible for promoting the company's servers and storage systems worldwide. Miller and his team are also responsible for driving the evolution of HP's Adaptive Infrastructure strategy.

Previously, as vice president of marketing for Industry Standard Servers (ISS) and HP BladeSystem, Miller spearheaded the marketing strategy for the fastest-growing business unit in ESS. Under Miller's leadership, ISS extended the x86-based HP ProLiant business with leading innovations and go-to-market campaigns. He also helped drive the growth of HP's bladed architectures, which are a cornerstone of the company's Adaptive Infrastructure strategy.

Miller's more than 20 years of experience in the high-tech industry includes positions held at IBM in mechanical engineering, software development, sales, management, planning and strategy.

Miller earned a bachelor's degree in mechanical engineering from the University of Wisconsin and a master's degree in business administration from the University of California at Berkeley's Hass School of Business, with a dual emphasis on marketing and finance.
