DAVE DONATELLI
Executive Vice President and General Manager
Enterprise Servers, Storage and Networking
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Dave Donatelli is executive vice president and general manager of Enterprise Servers, Storage and Networking for HP Enterprise Busines. In this role, he is responsible for the development and delivery of server, storage and networking solutions in the company's Business Critical Systems, Industry Standard Servers, Infrastructure Software and Blades, StorageWorks and ProCurve Networking business units.

This portfolio provides the foundation for HP Converged Infrastructure, the company's strategy for next-generation data centers that enable customers to increase agility, lower costs of operations and drive innovation into their businesses.

Prior to joining HP, Donatelli spent 22 years at EMC Corporation, where he held a variety of management, operations, sales and marketing positions. In his most recent role, he served as president of the EMC Storage Division, where he oversaw the development of EMC's storage platforms as well as the company's information management software and infrastructure software product offerings, global supply chain and worldwide manufacturing.

Donatelli is a graduate of Boston College and received a Master of Business Administration from Northwestern University's Kellogg School of Management.
