

Workers' Need For Connection Is Redefining Work

WORK
RELATIONSHIP
INDEX

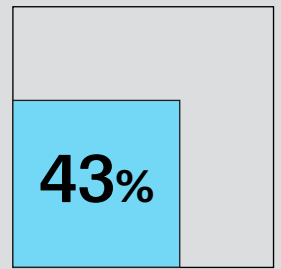

Human connection leads to healthier relationships with work. Today's workers rely on human connection to feel fulfilled and should be empowered by technology wherever they are.

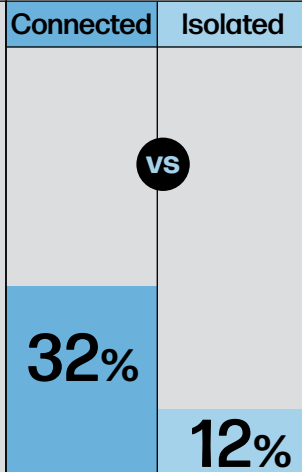

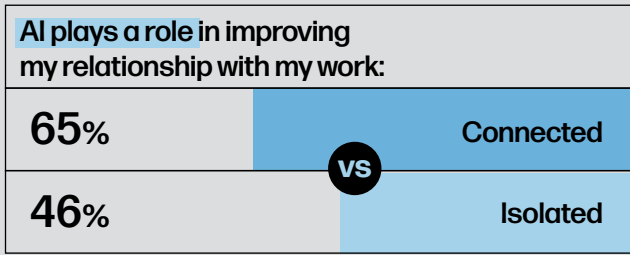

A majority of knowledge workers want to feel a sense of connection with their colleagues.

But nearly half of them aren't experiencing connection with their colleagues.

Connected workers see the role AI can play in improving their relationship with work more than their isolated colleagues.

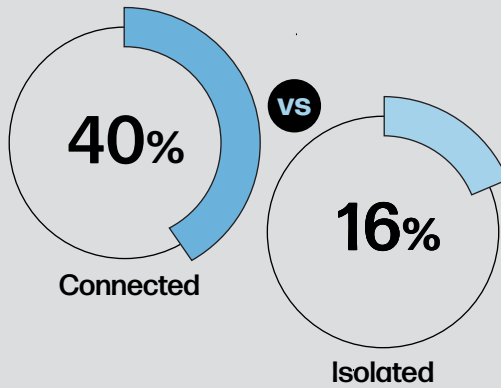

2.5x more confidence

Connected workers have 2.5x more confidence that their company will choose the right tech for hybrid work.

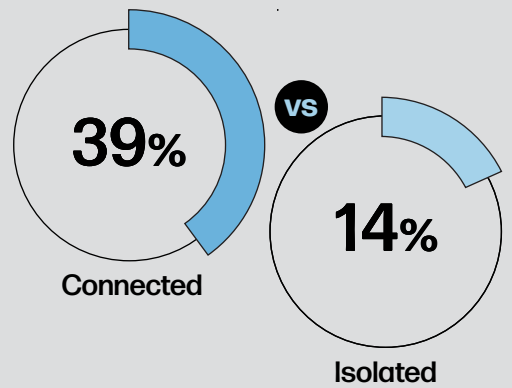

2x more fulfilled

Connected knowledge workers are over 2x more fulfilled than their isolated colleagues.

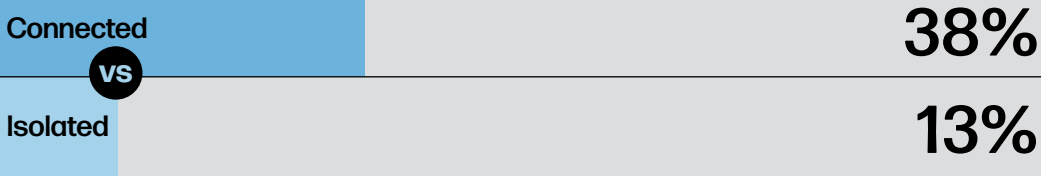

My work gives me purpose:

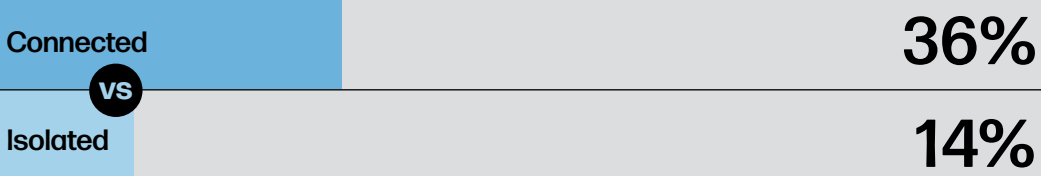

I feel fulfilled by the work I do:

I feel a sense of belonging at my organization:

My organization makes me feel safe to be my whole, authentic self:

3x more likely

Connected knowledge workers are 3x more likely than their isolated peers to feel a sense of belonging and safe to be their authentic self.
