Notes to table

Information about HP Inc.'s use of non-GAAP financial information is provided under "Use of non-GAAP financial information" below.

## Net revenue and EPS results

HP Inc. and its subsidiaries ("HP") announced fiscal 2024 second quarter net revenue of \$12.8 billion, down 0.8% (down 1.2% in constant currency) from the prior-year period.

"We delivered a solid quarter and first half, and unveiled an innovative portfolio of solutions designed for the AI and hybrid era" said Enrique Lores, President and CEO, HP Inc. "We have a clear strategy and are well positioned to drive profitable growth across our business."

Second quarter GAAP diluted net EPS was \$0.61, down from \$1.06 in the prior-year period and within the previously provided outlook of \$0.58 to \$0.68. Second quarter non-GAAP diluted net EPS was \$0.82, up from \$0.79 in the prior-year period and within the previously provided outlook of \$0.76 to \$0.86. Second quarter non-GAAP net earnings and non-GAAP diluted net EPS excludes after-tax adjustments of \$205 million, or \$0.21 per diluted share, related to restructuring and other charges, acquisition and divestiture charges, amortization of intangible assets, non-operating retirement-related credits and tax adjustments.

## Asset management

HP's net cash provided by operating activities in the second quarter of fiscal 2024 was \$581 million. Accounts receivable ended the quarter at \$4.3 billion, up 5 days quarter over quarter to 31 days. Inventory ended the quarter at \$7.5 billion, up 9 days quarter over quarter to 70 days. Accounts payable ended the quarter at \$14.4 billion, up 16 days quarter over quarter to 132 days.

HP generated \$481 million of free cash flow in the second quarter. Free cash flow includes net cash provided by operating activities of \$581 million adjusted for net investments in leases of \$19 million and net investments in property, plant and equipment of \$119 million.

HP's dividend payment of \$0.2756 per share in the second quarter resulted in cash usage of \$0.3 billion. HP also utilized \$0.1 billion of cash during the quarter to repurchase approximately 3.5 million shares of common stock in the open market. HP exited the quarter with \$2.5 billion in gross cash, which includes cash and cash equivalents of \$2.4 billion, restricted cash of \$75 million, and short-term investments of \$3 million included in other current assets. Restricted cash relates to amounts collected and held on behalf of a third party for trade receivables previously sold.

## Fiscal 2024 Second quarter segment results

- Personal Systems net revenue was \$8.4 billion, up 3% year over year (up 2% in constant currency) with a 6.0% operating margin. Consumer PS net revenue was down 3% and Commercial PS net revenue was up 6%. Total units were up 7% with Consumer PS units down 1% and Commercial PS units up 12%.
- Printing net revenue was \$4.4 billion, down 8% year over year (down 7% in constant currency) with a 19.0% operating margin. Consumer Printing net revenue was down 16% and Commercial Printing net revenue was down 12%. Supplies net revenue was down 5% (down 4% in constant currency). Total hardware units were down 17%, with Consumer Printing units down 17% and Commercial Printing units down 17%.

# Outlook

For the fiscal 2024 third quarter, HP estimates GAAP diluted net EPS to be in the range of \$0.63 to \$0.77 and non-GAAP diluted net EPS to be in the range of \$0.78 to \$0.92. Fiscal 2024 second quarter non-GAAP diluted net EPS estimates exclude \$0.15 per diluted share, primarily related to restructuring and other charges, acquisition and divestiture charges, amortization of intangible assets, non-operating retirement-related credits, tax adjustments and the related tax impact on these items.

For fiscal 2024, HP estimates GAAP diluted net EPS to be in the range of \$2.60 to \$2.90 and non-GAAP diluted net EPS to be in the range of \$3.30 to \$3.60. Fiscal 2024 non-GAAP diluted net EPS estimates exclude \$0.70 per diluted share, primarily related to restructuring and other charges, acquisition and divestiture charges, amortization of intangible assets, non-operating retirement-related credits, tax adjustments and the related tax impact on these items. For fiscal 2024, HP anticipates generating free cash flow in the range of \$3.1 to \$3.6 billion.

#### Use of non-GAAP financial information

To supplement HP's consolidated condensed financial statements presented on a generally accepted accounting principles ("GAAP") basis, HP provides net revenue on a constant currency basis, non-GAAP total operating expense, non-GAAP operating profit, non-GAAP operating margin, non-GAAP other income and expenses, non-GAAP tax rate, non-GAAP net earnings, non-GAAP diluted net EPS, free cash flow, gross cash and net cash (debt) financial measures. HP also provides forecasts of non-GAAP diluted net EPS and free cash flow. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the tables below or elsewhere in the materials accompanying this news release. In addition, an explanation of the ways in which HP's management uses these non-GAAP measures to evaluate its business, the substance behind HP's decision to use these non-GAAP measures, the material limitations associated with the use of these non-GAAP measures, the manner in which HP's management compensates for those limitations, and the substantive reasons why HP's management believes that these non-GAAP measures provide useful information to investors is included under "Use of non-GAAP financial measures" after the tables below. This additional non-GAAP financial information is not meant to be considered in isolation or as a substitute for net revenue, operating expense, operating profit, operating margin, other income and expenses, tax rate, net earnings, diluted net EPS, cash provided by operating activities or cash, cash equivalents, and restricted cash prepared in accordance with GAAP.

## Forward-looking statements

This document contains forward-looking statements based on current expectations and assumptions that involve risks and uncertainties. If the risks or uncertainties ever materialize or the assumptions prove incorrect, they could affect the business and results of operations of HP Inc. and its consolidated subsidiaries which may differ materially from those expressed or implied by such forward-looking statements and assumptions.

All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including, but not limited to, any statements regarding the impact of the COVID-19 pandemic; projections of net revenue, margins, expenses, effective tax rates, net earnings, net earnings per share, cash flows, benefit plan funding, deferred taxes, share repurchases, foreign currency exchange rates or other financial items; any projections of the amount, timing or impact of cost savings or restructuring and other charges, planned structural cost reductions and productivity initiatives; any statements of the plans, strategies and objectives of management for future operations, including, but not limited to, our business model and transformation, our sustainability goals, our go-to-market strategy, the execution of restructuring plans and any resulting cost savings (including the fiscal 2023 plan), net revenue or profitability improvements or other financial impacts; any statements concerning the expected development, demand, performance, market share or competitive performance relating to products or services; any statements concerning potential supply constraints, component shortages, manufacturing disruptions or logistics challenges; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on HP and its financial performance; any statements regarding pending investigations, claims, disputes or other litigation matters; any statements of expectation or belief as to the timing and expected benefits of acquisitions and other business combination and investment transactions (including the acquisition of Plantronics, Inc. ("Poly")); and any statements of assumptions underlying any of the foregoing. Forward-looking statements can also generally be identified by words such as "future," "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "projects," "will," "would," "could," "can," "may," and similar terms.

Risks, uncertainties and assumptions that could affect our business and results of operations include factors relating to the impact of macroeconomic and geopolitical trends, changes and events, including the Russian invasion of

Ukraine, tension across the Taiwan Strait, the Israel-Hamas conflict, other hostilities in the Middle East and the regional and global ramifications of these events; volatility in global capital markets and foreign currency, increases in benchmark interest rates, the effects of inflation and instability of financial institutions; risks associated with HP's international operations; the effects of global pandemics, such as COVID-19, or other public health crises; the execution and performance of contracts by HP and its suppliers, customers, clients and partners, including logistical challenges with respect to such execution and performance; changes in estimates and assumptions HP makes in connection with the preparation of its financial statements; the need to manage (and reliance on) third-party suppliers, including with respect to supply constraints and component shortages, and the need to manage HP's global, multi-tier distribution network and potential misuse of pricing programs by HP's channel partners, adapt to new or changing marketplaces and effectively deliver HP's services; HP's ability to execute on its strategic plans, including the previously announced initiatives, business model changes and transformation; execution of planned structural cost reductions and productivity initiatives; HP's ability to complete any contemplated share repurchases, other capital return programs or other strategic transactions; the competitive pressures faced by HP's businesses; successfully innovating, developing and executing HP's go-to-market strategy, including online, omnichannel and contractual sales, in an evolving distribution, reseller and customer landscape; the development and transition of new products and services and the enhancement of existing products and services to meet evolving customer needs and respond to emerging technological trends, including artificial intelligence; successfully competing and maintaining the value proposition of HP's products, including supplies and services; challenges to HP's ability to accurately forecast inventories, demand and pricing, which may be due to HP's multi-tiered channel, sales of HP's products to unauthorized resellers or unauthorized resale of HP's products or our uneven sales cycle; integration and other risks associated with business combination and investment transactions; the results of our restructuring plans (including the fiscal 2023 plan), including estimates and assumptions related to the cost (including any possible disruption of HP's business) and the anticipated benefits of our restructuring plans; the protection of HP's intellectual property assets, including intellectual property licensed from third parties; the hiring and retention of key employees; disruptions in operations from system security risks, data protection breaches, cyberattacks, extreme weather conditions or other effects of climate change, and other natural or manmade disasters or catastrophic events; the impact of changes to federal, state, local and foreign laws and regulations, including environmental regulations and tax laws; our aspirations related to environmental, social and governance matters; potential impacts, liabilities and costs from pending or potential investigations, claims and disputes; our use of artificial intelligence; the effectiveness of our internal control over financial reporting; and other risks that are described in HP's Annual Report on Form 10-K for the fiscal year ended October 31, 2023 and HP's other filings with the Securities and Exchange Commission ("SEC"). HP's fiscal 2023 plan includes HP's efforts to take advantage of future growth opportunities, including but not limited to, investments to drive growth, investments in our people, improving product mix, driving structural cost savings and other productivity measures. Structural cost savings represent gross reductions in costs driven by operational efficiency, digital transformation, and portfolio optimization. These initiatives include but are not limited to workforce reductions, platform simplification, programs consolidation and productivity measures undertaken by HP, which HP expects to be sustainable in the longer-term. These structural cost savings are net of any new recurring costs resulting from these initiatives and exclude one-time investments to generate such savings. HP's expectations on the longer-term sustainability of such structural cost savings are based on its current business operations and market dynamics and could be significantly impacted by various factors, including but not limited to HP's evolving business models, future investment decisions, market environment and technology landscape.

As in prior periods, the financial information set forth in this document, including any tax-related items, reflects estimates based on information available at this time. While HP believes these estimates to be reasonable, these amounts could differ materially from reported amounts in HP's Quarterly Report on Form 10-Q for the fiscal quarter ending July 31, 2024, Annual Report on Form 10-K for the fiscal year ending October 31, 2024, and HP's other filings with the SEC. The forward-looking statements in this document are made as of the date of this document and HP assumes no obligation and does not intend to update these forward-looking statements.

HP's Investor Relations website at investor.hp.com contains a significant amount of information about HP, including financial and other information for investors. HP encourages investors to visit its website from time to time, as information is updated, and new information is posted. The content of HP's website is not incorporated by reference

into this document or in any other report or document HP files with the SEC, and any references to HP's website are intended to be inactive textual references only.

(a) Effective first quarter of fiscal 2024, HP presents consolidated net revenue and cost of revenue bifurcated between products and services. HP has reflected this change to its prior reporting periods on an as-if basis. The reporting change had no impact to previously reported segment net revenue, consolidated net revenue, earnings from operations, net earnings or net earnings per share ("EPS"). Services include revenues from support and maintenance contracts and other services, and excludes product hardware and supplies revenues associated with as-a-service offerings and instant ink subscriptions which are categorized within product revenues.

(a) Effective at the beginning of its first quarter of fiscal 2024, HP realigned its business unit financial reporting more closely with its customer market segmentation. The realignment resulted in the transfer of LaserJet printers net revenues from Consumer Printing to Commercial Printing. HP reflected this change to its business unit information in prior reporting periods on an as-if basis which resulted in the reclassification of net revenues from Consumer Printing to Commercial Printing. The reporting change had no impact to previously reported segment net revenue, consolidated net revenue, earnings from operations, net earnings or net earnings per share.

(b) "NM" represents not meaningful.

## Use of non-GAAP financial measures

To supplement HP's consolidated condensed financial statements presented on a GAAP basis, HP provides net revenue on a constant currency basis, non-GAAP total operating expense, non-GAAP operating profit, non-GAAP operating margin, non-GAAP other income and expenses, non-GAAP tax rate, non-GAAP net earnings, non-GAAP diluted net EPS, free cash flow, gross cash and net cash (debt). HP also provides forecasts of non-GAAP diluted net EPS and free cash flow.

These non-GAAP financial measures are not computed in accordance with, or as an alternative to, GAAP in the United States. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the tables above or elsewhere in the materials accompanying this news release.

# Use and economic substance of non-GAAP financial measures

Net revenue on a constant currency basis excludes the effect of foreign currency exchange fluctuations calculated by translating current period revenues using monthly exchange rates from the comparative period and excluding any hedging impact recognized in the current period. Non-GAAP operating margin is defined to exclude the effects of any amounts relating to restructuring and other charges, acquisition and divestiture charges, amortization of intangible assets. Non-GAAP net earnings and non-GAAP diluted net EPS consist of net earnings or diluted net EPS excluding those same charges, non-operating retirement related (credits)/charges, debt extinguishment costs (benefit), tax adjustments and the amount of additional taxes or tax benefits associated with each non-GAAP item.

HP's management uses these non-GAAP financial measures for purposes of evaluating HP's historical and prospective financial performance, as well as HP's performance relative to its competitors. HP's management also uses these non-GAAP measures to further its own understanding of HP's segment operating performance. HP believes that excluding the items mentioned above for these non-GAAP financial measures allows HP's management to better understand HP's consolidated financial performance in relation to the operating results of HP's segments, as HP's management does not believe that the excluded items are reflective of ongoing operating results. More specifically, HP's management excludes each of those items mentioned above for the following reasons:

- Restructuring and other charges are (i) costs associated with a formal restructuring plan and are primarily
  related to employee separation from service and early retirement costs and related benefits, costs of real estate
  consolidation and other non-labor charges; and (ii) other charges, which includes non-recurring costs including
  those as a result of information technology rationalization efforts and transformation program management and
  are distinct from ongoing operational costs. HP excludes these restructuring and other charges (and any
  reversals of charges recorded in prior periods) for purposes of calculating these non-GAAP measures because
  HP believes that these costs do not reflect expected future operating expenses and do not contribute to a
  meaningful evaluation of HP's current operating performance or comparisons to operating performance in other
  periods.
- HP incurs cost related to its acquisitions and divestitures, which it would not have otherwise incurred as part of
  its operations. The charges are direct expenses such as third-party professional and legal fees, integration and
  divestiture-related costs, as well as non-cash adjustments to the fair value of certain acquired assets such as
  inventory and certain compensation charges related to cash settlement of restricted stock units and
  performance-based restricted stock units towards acquisitions. These charges related to acquisitions and
  divestitures are inconsistent in amount and frequency and are significantly impacted by the timing and nature of
  HP's acquisitions or divestitures. HP believes that eliminating such expenses for purposes of calculating these
  non-GAAP measures facilitates a more meaningful evaluation of HP's current operating performance and
  comparisons to operating performance in other periods.

- HP incurs charges relating to the amortization of intangible assets. Those charges are included in HP's GAAP earnings, operating margin, net earnings and diluted net EPS. Such charges are significantly impacted by the timing and magnitude of HP's acquisitions and any related impairment charges. Consequently, HP excludes these charges for purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to operating performance in other periods.
- HP incurs debt extinguishment (benefit)/costs includes certain (gain)/loss related to repurchase of certain of its outstanding U.S. dollar global notes or termination of commitments under revolving credit facilities. These (gain)/loss resulting from debt redemption transactions are partially or more than offset by costs such as bond repurchase premiums, bank fees, unpaid accrued interests, etc. HP excludes these (benefit)/costs for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to operating performance in other periods.
- Non-operating retirement-related (credits)/charges includes certain market-related factors such as interest cost, expected return on plan assets, amortized actuarial gains or losses, associated with HP's defined benefit pension and post-retirement benefit plans. The market-driven retirement-related adjustments are primarily due to the changes in the value of pension plan assets and liabilities which are tied to financial market performance and HP considers these adjustments to be outside the operational performance of the business. Non-operating retirement-related (credits)/charges also include certain plan curtailments, settlements and special termination benefits related to HP's defined benefit pension and post-retirement benefit plans. HP believes that eliminating such adjustments for purposes of calculating non-GAAP measures facilitates a more meaningful evaluation of HP's current operating performance and comparisons to operating performance in other periods.
- HP recorded tax adjustments including tax expenses and benefits from internal reorganizations, realizability of certain deferred tax assets, various tax rate and regulatory changes, and tax settlements across various jurisdictions. HP excludes these adjustments for the purposes of calculating these non-GAAP measures to facilitate a more meaningful evaluation of HP's current operating performance and comparisons to operating performance in other periods.

Free cash flow is a non-GAAP measure that is defined as cash flow provided by (used in) operations activities adjusted for net investment in leases and net investments in property, plant, and equipment. Gross cash is a non-GAAP measure that is defined as cash, cash equivalents and restricted cash plus short-term investments and certain long-term investments that may be liquidated within 90 days pursuant to the terms of existing put options or similar rights. HP's management uses free cash flow and gross cash for the purpose of determining the amount of cash available for investment in HP's businesses, repurchasing stock and other purposes. HP's management also uses free cash flow and gross cash to evaluate HP's historical and prospective liquidity. Because gross cash includes liquid assets that are not included in cash, cash equivalents and restricted cash, HP believes that gross cash provides a helpful assessment of HP's liquidity. Because free cash flow includes net cash provided by (used in) operating activities adjusted for net investment in leases and net investments in property, plant and equipment. HP believes that free cash flow provides a more accurate and complete assessment of HP's liquidity and capital resources. Net cash (debt) is defined as gross cash less gross debt after adjusting the effect of unamortized premium/discount on debt issuance, debt issuance costs and gains/losses on interest rate swaps.

## Key Growth Areas

Key Growth Areas represent HP's businesses which management expects to grow at a rate faster than HP's core business with accretive margins in the longer term. HP's Key Growth Areas are comprised of:

Hybrid Systems: Video conferencing solutions, cameras, headsets, voice, and related software capabilities

Gaming: Gaming PCs (Omen, Victus, etc.), HyperX and gaming accessories

*Workforce Solutions:* Managed services (Managed Print Service and Device-as-a-Service), digital services and lifecycle services

Consumer Subscriptions: Instant Ink, other consumer subscriptions and consumer digital services

*Industrial Graphics:* Large Format Industrial, Page Wide Press (PWP), Indigo and Page Wide Industrial packaging solutions and supplies

*3D & Personalization:* Portfolio of additive manufacturing solutions and supplies including end-to-end solutions such as molded fiber, footwear and orthotics

## Material limitations associated with use of non-GAAP financial measures

These non-GAAP financial measures may have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of HP's results as reported under GAAP. Some of the limitations in relying on these non-GAAP financial measures are:

- Items such as amortization of intangible assets, though not directly affecting HP's cash position, represent the loss in value of intangible assets over time. The expense associated with this change in value is not included in non-GAAP operating margin, non-GAAP net earnings and non-GAAP diluted net EPS, and therefore does not reflect the full economic effect of the change in value of those intangible assets.
- Items such as restructuring and other charges, acquisition and divestiture charges, amortization of
  intangible assets are excluded from non-GAAP operating margin. In addition, non-operating retirementrelated (credits)/charges, debt extinguishment costs (benefit) and tax adjustments are excluded from nonGAAP other income and expenses, non-GAAP tax rate, non-GAAP net earnings and non-GAAP diluted net
  EPS. These items can have a material impact on the equivalent GAAP earnings measure and cash flows.
- HP may not be able to immediately liquidate the short-term and certain long-term investments included in gross cash, which may limit the usefulness of gross cash as a liquidity measure.

Other companies may calculate the non-GAAP financial measures differently than HP, limiting the usefulness of those measures for comparative purposes.

#### Compensation for limitations associated with use of non-GAAP financial measures

HP accounts for the limitations on its use of non-GAAP financial measures by relying primarily on its GAAP results and using non-GAAP financial measures only supplementally. HP also provides reconciliations of each non-GAAP financial measure to its most directly comparable GAAP measure within this news release and in other written materials that include these non-GAAP financial measures, and HP encourages investors to review those reconciliations carefully.

#### Usefulness of non-GAAP financial measures to investors

HP believes that providing net revenue on a constant currency basis, non-GAAP total operating expense, non-GAAP operating profit, non-GAAP operating margin, non-GAAP other income and expenses, non-GAAP tax rate, non-GAAP net earnings, non-GAAP diluted net EPS, free cash flow, gross cash and net cash (debt) to investors in addition to the related GAAP financial measures provides investors with greater insight to the information used by HP's management in its financial and operational decision making and allows investors to see HP's results "through the eyes" of management. HP further believes that providing this information better enables HP's investors to understand HP's operating performance and financial condition and to evaluate the efficacy of the methodology and information used by HP's management to evaluate and measure such performance and financial condition. Disclosure of these non-GAAP financial measures also facilitates comparisons of HP's operating performance with the performance of other companies in HP's industry that supplement their GAAP results with non-GAAP financial measures that may be calculated in a similar manner.
