

Arthur Filip

Vice President and General Manager
Technology Consulting
Hewlett-Packard Company

Arthur Filip is the worldwide leader of HP Technology Consulting, driving strategy and delivery for the company's broad consulting portfolio designed for the most demanding and complex client environments.

His responsibilities span a core portfolio that includes Converged Infrastructure, Network Consulting, Education Services offerings; and Advanced Solutions: Digital Hospital, Energy Efficiency Management and Cloud Computing.

Over his 20 year career, Filip has held leadership positions in consulting, sales, delivery, and global solution development, with experience in various facets of the IT industry, including consulting, industry solutions, systems integration, and managed services.

Prior to joining HP, Filip led, built, transformed and successfully managed organizations at IBM Global Services, Unisys and Oracle Consulting. Most recently Filip was group vice president for Oracle Consulting, with responsibility for North America Strategic Accounts.

Filip holds a bachelor's degree from Boston University School of Management
