

Srinivas (Srini) Koushik

Vice President, Strategic Enterprise Services
Worldwide Applications and Business Services
Hewlett-Packard Company

Srini Koushik is vice president and worldwide strategic enterprise services executive for Enterprise Services at HP. He leads HP's global consulting and systems integration practices around IT and business transformation, cloud computing, mobile computing, information management and analytics, and emerging technologies.

Prior to his role at HP, Koushik was senior vice president and chief information officer at Nationwide Insurance – a Fortune 100 financial services company. During his tenure at Nationwide, he drove the design and implementation of a cutting-edge business analytics environment based on cloud computing, and a large-scale transformation of the company's infrastructure to use server, storage, network and desktop virtualization.

Koushik also was previously vice president and worldwide architecture practice leader at IBM. He was appointed as an IBM Distinguished Engineer in 1998 and elected to the IBM Academy of Technology in 1999. Koushik has had a highly decorated career that includes being named an Elite 8 CIO by Insurance and Technology, a Top 25 CTO by Infoworld in 2004 and one of the Top 10 All Stars in the Financial Services Industry by TechDecisions in 2007. He also is an Open Group Distinguished Certified Architecture Profession Leader.

Koushik holds a bachelor's degree in physics from the University of Madras, a master's degree in computer science from the University of Bombay, a master's degree in business administration from Ohio State University and several executive education courses from MIT's Sloan School of Management and Duke University.
